SUMMARY

I am currently a full-time fifth-year student of electrical engineering at the Zagreb University of Applied Sciences, majoring in automation and process computing. In September 2021, I completed my undergraduate professional studies in electrical engineering at the Zagreb University of Applied Sciences, majoring in automation and process computing. During this three-year study, I gained general knowledge of the C programming language, electronic components, analog and digital circuits, microcontrollers, programmable logic controllers, as well as general knowledge of electrical engineering.

At work, I am collegial, a team player, I like a positive working environment and communication, but also constructive criticism. I am also motivated and eager to develop my programming knowledge.

EXPERIENCE

Waiter
Globalna Hrana d.o.o.

05/2022 - 08/2022

- General bar work
- Preparing drinks
- Keeping the bar clean
- Serving and communicating with guests

Waiter
Me Gusta Bar

06/2020 - 10/2020

- General bar work
- Preparing drinks
- Keeping the bar clean
- Serving and communicating with guests

Digital content editor
Školska knjiga d.d.

07/2018 - 10/2019

- Production and editing of digital, educational and interactive content
- Working in a team, coordination with different subject editors
- HTML

Warehouse worker
Sport Vision d.o.o.

06/2017 - 08/2017

- General warehouse work

EDUCATION

Automation and process computing
Zagreb University of Applied Sciences - Bachelor's degree in electrical engineering

10/2017 - Present

- Programming language C
- Microcontrollers
- Programmable logic controllers - Simatic S7

- Analog and digital circuits
- Application of personal computers
- MATLAB - Simulink

SKILLS

React	Basic	JQuery	Basic
HTML	Basic	C	Basic
CSS	Basic	Visual Studio Code	Basic
SCSS	Basic	MATLAB - Simulink	Intermediate
JavaScript	Basic	MS Office	Intermediate

LANGUAGES

Croatian	Native	English	Fluent
